

PRASANNA JAGANADHAM

Data Analyst · BI Developer · 3× Alteryx Certified · ex-Banking (Finacle)

Dijon, France | +33 6 83 21 10 50 | jaganadhamprasanna@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Indian national · Stage available June 2026 · CDI from autumn 2026 (post-APS, no sponsorship needed)

PROFILE

Data analyst and BI developer with 1.5 years at Infosys delivering production SQL reports, reconciliations and stakeholder Excel deliverables on the Finacle core banking platform for major European banks (Payments, CRM, Treasury, Wealth). Backed by an MSc Data Science from Burgundy School of Business (Grande École), 3× Alteryx certifications, and Power BI dashboard work shipped into weekly executive reviews. Seeking junior Data Analyst or BI Developer roles in France — stage from June 2026, CDI from autumn 2026. English C1, French B1 (→B2), Telugu native.

PROFESSIONAL EXPERIENCE

Software Engineer — Banking Reports & Analytics

Infosys Ltd. — Hyderabad, India

Feb 2022 – Jun 2023

- Authored production SQL queries, stored procedures and UNIX shell jobs against the Finacle core banking platform to deliver daily reports on Payments, CRM, Treasury and Wealth Management for major European banking clients.
- Designed and shipped Excel deliverables — transaction summaries, branch-level activity and reconciliations — used directly by client banking teams in their daily operations.
- Optimised long-running SQL through index strategy, join restructuring and CTEs — turned multi-hour reports into ones running in minutes and reclaimed hours per daily reporting cycle.
- Extracted data from Finacle Oracle backend schemas to feed downstream reconciliation, regulatory and management reporting; documented data flows and handed over production-ready code to onshore EU client teams.

Data Analyst Intern — BI Dashboards & Forecasting

YBI Foundation — Remote · India

May 2024 – Aug 2024

- Designed Power BI KPI dashboards adopted into weekly executive reviews — first hands-on Power BI work, since deepened through MSc projects.
- Cleaned and unified 200,000+ records from 3 sources (Excel, SQL exports, CSV logs) into a single analysis-ready dataset using reusable Python modules.
- Built a sales forecasting model (Python, scikit-learn) on the unified dataset, improving MAPE by 15 % vs naïve baseline on a 12-month hold-out.

SELECTED PROJECTS

Spotify Music Analytics — Power BI Dashboard (MSc) — *Power BI · DAX · Power Query (M) · Star schema modelling*

- Interactive Power BI dashboard with star-schema data model in Power Query M and custom DAX measures — slicers for genre/era/artist, drill-through navigation, KPI cards and time-series visuals.

COVID-19 ICU Capacity Analysis (MSc) — *PostgreSQL · Docker · Python (scipy.stats) · SQL aggregations*

- Containerised PostgreSQL database monitoring hospital ICU and Med/Surg capacity utilisation; hypothesis testing (two-sample t-tests with multiple-comparison correction) identified facilities with statistically significant persistent over-capacity.

Amazon Price Tracker & Email Alerter (2026) — *Python · BeautifulSoup4 · requests · pandas · smtplib*

- End-to-end Python project tracking amazon.fr daily, logging to CSV and emailing on threshold breach. Solved 6 production-grade bugs (anti-bot headers, broken selectors, French locale parsing, Gmail SMTP authentication).

TECHNICAL SKILLS

BI & Analytics Power BI, DAX, Power Query (M), Tableau, Alteryx (3× certified), Excel (advanced + Power Query)

SQL & Databases SQL — windows, CTEs, tuning · Stored procedures · Oracle (Finacle), PostgreSQL · Database tuning & indexing

Programming Python, pandas, scikit-learn, BeautifulSoup, Bash / UNIX shell scripting, Jupyter

Statistics EDA, regression, hypothesis testing, time-series forecasting

Cloud & DevOps Docker, Microsoft Azure Fundamentals, Git / GitHub, Linux / UNIX

Certifications Alteryx Data Manipulation · Alteryx Data Preparation · Alteryx Data Transformation · Bloomberg Market Concepts (BMC)

Spoken Languages English (C1, fluent) · French (B1, →B2) · Telugu (native)

EDUCATION

MSc Data Science & Organisational Behaviour — Burgundy School of Business (Grande École), Dijon *2024 – 2025*

Master in Management (MIM) — Burgundy School of Business (Grande École), Dijon *2023 – 2024*
